

Preventive Maintenance Packages

Your equipment plays a key role in your ability to drive innovation and overall success in your industry. To help maximize your uptime, STERIS recommends conducting scheduled preventive maintenance to replace parts that tend to wear during normal equipment operation.

STERIS equipment has a recommended preventive maintenance checklist and schedule. We offer a variety of options to help you save money and prevent downtime.

Parts Only Packages:

- Parts Packages consist of all recommended components, making it easy to order exactly what you need
- Includes preventive maintenance parts identified for annual replacement
- Contains authentic OEM parts (with a 90 day warranty)

Preventive Maintenance Care Plan

- Annual agreement that follows the OEM recommended preventive maintenance guidance customized for your equipment
- The STERIS Service Technician manages your preventive maintenance schedule, orders parts and performs necessary labor
- You will receive documentation of the Service visit
